In another column we publish a spe cial telegram, received from Ottawa on Saturday, by which we have further details respecting the reconstruction of the Cabinet, besides an intimation of the principal measures alluded to in the Governor General's speech from the throne on the occasion of the opening of the House. The changes in the Cabinet, so far as they have been completed, are To the W. M., Officers and Brethren of the as have been already announced in these columns; but some of the offices are yet onfilled. The offices of Secretary of State for the Dominion and Secretary of State for the Provinces have been merged into one. These changes have in a measure been necessitated by the retirement of Sir Francis Hincks from the Finance Department of the Government. The strength of the respective parties in the House, it seems, has been tested on a division in the matter of the contested seat for the representation of the town of Peterboro', on which occasion the Government was sustained by a majority of sixteen. In so large an Assembly, and in reference to a matter in which the policy of Government could scarcely be involved to any great extent, it seems to us that sixteen is an exceedingly narrow majority, and hence it is not to be wondered at that the Opposition are rather encouraged by their defeat than otherwise. The Government, however, feel sccure in their strength, and Monday Eve, March 17th satisfied that when a direct attack is made upon their policy, their majority Mr. C. T. COLEMAN will be very much greater than it was on the division above referred to. We hope it may be so. It would be a sad blow to the best interests of the coun try were the present Government to sustain a defeat at this particular juncture, and no part of the Dominion would likely feel it more keenly than this Province of British Columbia. Were the opposition to get the reins of power just now, we fear the effect would be it. now, we fear the effect would be, if not to defeat the messure of the Government Land Registry Ordinance, 1870 with reference to the construction of the Canadian Pacific Railway, at least to delay the progress of the work, than which a greater blow could scarcely be Land Registry Ordinance, 1870," I shall given to our interests and our hopes, issue a duplicate Certificate of Title (in lieu The strength of the Gove nment may troyed) to "all that portion of Five acre tract largely depend upon the character of the gentlemen who may be called to fill the vacant seats in the Cabinet, and we sincerely hope that whoever they may be, and Vancouver Street, distant 120 feet in from the South Easterly corner of Cormonia Map as Lot 1612 together with De Paul & Co., But the street of the Cabinet, and Vancouver Street, Restarts the seats the seats in the Cabinet, and Vancouver Street, distant 120 feet in from the South Easterly corner of Cormonia Map as Lot 1612 together with De Paul & Co., But the city of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the city of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the city of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the city of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the city of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on the Official Map as Lot 1612 together with De Paul & Co., But the City of Victoria and known on they will be able to command such a mea- "ant and Vancouver Streets, Easterly; the improvements thereon, consisting of sure of influence and confidence as will so strengthen the hands of the Govern

Puget Sound Courier. In another column we publish as an advertisement a proclamation of the President of the United States, wherein it is ordered that all tracts or parcels of land included in any of the late disputed islands, should be "withheld from sale, or disposal of any nature, under pre-empti e, homestead or other laws of the United States, until after the claims to be subject to Great Britain, shall have been adjusted and public notice thereof given.'
The President claims that the rights and possessory titles of such persons are protected by the treaty of 1846, and by subsequent arrangements for the joint accupation of said territory between our Government and that of and Great Britain.

The only portion of the treaty of 1846 at all applicable to this case is a provision in the 3d Article, which reads as follows: "In the future appropriation of the Territory

south of the 49th. paral el of North latitude, as provided in the first article of this treaty, the possessory rights of the Hudson Bay Company, and of all British subjects who may be already in the occupation of land or other

already in the occupation of land or other property lawfully acquired within the said territory, shall be respected.

It will be readily seen that but very few if any British subjects can claim protection under this treaty alone, there having been no settlement made at the time of the trusty. But we understand that in the negotiation concluded in behalf of our Government by the late General Winfield Scott for the joint occupancy of the islands, the rights of such subjects were expressly guaranteed, and that therefore the treaty of 1848, in the opinion of our Government, has a prospective opera-tion, until the final settlement of the ques-tion, and that therefor all British subjects, having possessory titles up to the time of the final award, and who still sustain that relation, are entitled to have the same confirmed

by our Government.

We understand that a number of these British subjects, since the award was made, have declared their intention to become naturalized, thus abjuring their former alllegi-ance, although this was done under a quasi protest, believing that this step was necessary to secure the title to these lands. Just who will be entitled to have their possessory titles as British subjects protected, may become a question, on which we venture no opinion.

In the meantime all the lands on these islands, whether settled or vacant, are with-held from entry under any of the land laws until the claims are adjusted and public notises thereof given. This certainly is a very serious drawback to the settlement and prosperity of that and neighbouring portions of and Territory, especially if this adjudication is delayed for any length of time. Our delegate, Judge McFadden, ought to make, without delay, such representation in the proper quarter as will cause, if possible, a speedy examination of these claims, so that the remaining lands unclaimed and unoccupied will be made available to such persons as desire to build up permanent homes in this very fertile and productive portion of our Territory.

The "George S. Wright" Disaster.

NO SURVIVORS FOUND. The steamer Sir James Douglas arrived here on Saturday, at five, p.m., bringing the sed news confirmatory of the former reports with regard to the loss of the steamer George s. Wright, and every one belonging to her. The Douglas left Nanaimo on Saturday morn-ing, and reports the seamships Peterel, Lin-eds, and Gussie Telf ir lying there, having after an untring and penetrating search, been compelled to return to that port withou the joyini news which would have set many as achieg heart at rest. Mr. Nicholls, of the Oregon Steam Navigation Company, and Mr. Jessey Spratt, of this city, arrived down on Saturday, and f om the few facts which have been brought to light, we gather that the un-fortunate steamer is known to have called at Fort Tongas on or about the 13th of January as she was making her up trip, where she took os board the usual mails, a little freight, a Frenchman belonging to Omineca, and Mr John Williams, who was possessed, at the time of embarkation, of the sum of \$15,000 in gold dust Still continuing her passage up, the Wright is known to have ar rived at Sirka in safety; and at the latter place Measrs. Charles Kincaid, and Charles Waldron, as well as Lieutenant Dodge, U. S. A., and a servant, were added to the living freight, which then numbered thirty-one souls, all told. Mr. Waldron, was the owner of a fishing station at a small bay-called Kluvok, whither the steamer proceeded for the purpose of taking in freight, corsisting of some 800 barrels of salmon, and an assoriment of skins, furs, oil, etc.; and on the 25th of January she sailed from that place for Navaimo, and has never since -so, far as knowledge of existing circumstances

ABRIVAL OF M.M.S. PETEREL AND THE STEAMER GUSSIE TELFAIR.

Testerday afternoon, after the receipt of the above information per the steamer Doug-las, H.M.S. Peterel and the steamer Gussie which may transpire at Ottawa during the Telfair arrived here at 4:30 from Nanaimo.

Lefe Bequimelt barbor on Monday, March 2d; at 8 a. w., and arrived at Nanaimo at 6 p. m.; took on board Captain Spaulding, J. P. and at 8 o'clock the following morning proceeded towards Gowland Harbor, which was reached at 6 p. m. On Wednesday morning, at 7:55, weighed anchor and made for Alert Bay, and at 3:25, off Cormorant Island, Mr. Huston was communicated with; lett again at 2:45, anchoring in Benver Barber and communicating with the station of the H. B. Co. At Alert Bay nothing at all could be learned with regard to the wreck, but it was reported that Father Fouquet had received information from Indians that a The Peterel, baving previously taken on farmers, shipped from Sait Spring Island to board two Indian interpreters at Beaver Har- Nanaimo, per steamer Douglas, on Thursday road. It is arranged that the company underhor, was compelled to lie there on account of the severity of the weather, until Friday last, some ninety head of cattle, thirteen morning, the 7th, at 7:25 a.m., when, baffled pigs, one horse, together with a quantity of by snow storms and heavy squalls, she left for Cape Caution, which was made at 10:45 Cranberry District, where Messrs. Stark and a. m. Arrived there the snow sterms colit. Overion are about to prosecute agricultural ned with unabated fury, and the weather was pursuits. overcast. The engines were, however, eased, and she lay off the Cape until 11:30, when sioner of Lands and Works returned on Sashe started for Smith's Sound, about five turday from an inspection of the roads in the miles north of the latter place; thence pro ceeded to Takush Harbor, entering which she touched upon a rock not laid down on the charts ; at 1:20 p. m. stopped at Takush and communicated with an Indian rancherie, when it was learnt that only one man had been down the coast from that place to Cape Caution. The Peterel was compelled to lie under shelter at Takush all day, the weather being exceedingly bad, and on Sunday merning, with fine weather, she sailed again, but immediately outside the harbor it commenced to blow a gale from the west, so as to render any effort to lower boats entirely out of the question. On the down trip met the U. S. revenue cutter Lincoln in her upward passage, about 10 miles to the south of Cape Caution, and informed her that all has been repaired, and weather per efforts had been futile, and suggested that it operations will be continued to-day. would be useless for her to proceed further north; laid at Alert Bay Sunday night, and on Monday, the 10th, left at 6:30 a.m. for Father Fouquet's mission, but bad weather

in Parsons' Bay, where she stopped until Tuesday, at 7:20, a.m.; and passing through

very intricate channels, reached the Mission at 8:15, a.m.; here Father Fouquet was com-

11:45, a.m., and left the following day at 7:55, a.m., for Comox, where the Peterel arrived at 2:20, p.m.; left there for Nanaimo, at 7, a m., on Friday morning, and anchored at that place, at 5, p.m., same day; the steamer Gus-is Telfair arriving at 9:30, p.m.

At Nausimo the Peterel was beached and repaired, the damage to her keel only being slight, and yesterday morning the left for B-quimalt, where she arrived in asfety, after having completed a very rough trip all Sixteen on the First Division.

THE STEAMER GUSSIE TELPAIR'S REPORT. By the Guesie Telfair we have news which THE OPPOSITION HOPEPUL_THE GOVonly tends to corroborate the preceding in-formation; but she gives a list of passengers known to have been on board, which are also mentioned elsewhere ; they are as follows: The

Major Walker, U.S A., and wife. Lieutenant Henry C. Dodge, Battery C., Second U.S. Artillery, and formerly Quarter

Master at Sitka John Williams, of Victoria.

Mr. Sincheimer, a soldier, and formerly
Quarter Master's Clerk, at Sitks. Charles Waldron.

Charles Kinkead. A man supposed to be named Hogan, fro to work at Kluvok, same unknown. The Telfair reports that there is little doub that the Wright was wrecked upon the " Ses Otter Group," which consists of low, sunken rocks, about six miles outside of Queen Charlotte Sound. Confirmatory of which supposition, are the facts that portions of the wreck were found in Wright's Sound, 200 miles north, and in Seatorth Channel, some sinety miles north of the wreck. The pilot house, half of a mast, and portions of the main deck, together with a number of deer skine and fragments of freight were also visible at Cape Caution, and in this locality it would have been utterly impossible to effect any landing, Opposition is hopeful, but the Government or indeed on any part of the open coast along which vestiges of the misfortune are to be The Gussie Telfair called in at ever

I bear but one opinion expressed in respect of this parisewersby undertaking, namely, that if economically and judiciously conducted, it cannot fail to become one of the best paying industries in British Columbia. The Mud Punts.

Enroce Standard:—In the papers of to-day I saw an advertisement for the sale by tender of the old pusts. It appears to me to be a very foelish thing for the Government to call for tenders to purchase the old pusts, when they consider them worthless to repair. What can any one do with them? If the Government had called for tenders and had loyal acceptance of the award, per se. There is of course grumbling. But nothing to indicate that a single representative thinks the award should be repudiated. The honor of the nation is to be applied on all the second should be repudiated. The honor of the nation is to be applied on all the second should be repudiated. would like to know what space they reckon to be in one of the new punts to carry any such thing. They are only 30 feet long over all; 22 feet 6 inches on the bottom; and about 11 feet beam, with a small box in the centre about the size of a common coal car. must say they are pretty looking craft, and some of our photographers cught to have a sketch of them to send to Otiawa or some port where dredging is done; then the draughtsman might get a patent for punt.

I would recommend the builder to try again, and make the next a little better shape. have been informed that the Government intend to build more punts. I hope they will give the mechanics of Victoria a chance to live, and not allow the public money to be monopolized by a few. There are a number of shipwrights here who can turn out any kind of shipwork from a punt to a first-class sailing vessel; men who have been in the colony since 1862, the only difference between them and some master shipwrights that the Press of Canada will be careful and here being that they don't assume the name of "Captain so and so."
